I know I dont know when to start
at because I dont think anyone
could conceive the loss I have
endured over this last few years. I just
dont know what to do next I mean
to be honest I am down and out i am on my last
leg I have loss everything... even my family my unborn
child... nothing remains but my faith with none to
turn to. So I write this letter because I know judges
are very intelligent people and I also understand they
are very important and busy individuals but I have to
explain my situation to someone. Mr Schneider I can

The time I always wanted a real family but I do
have a foster family but You know I'm black I am
filing a racial discrimination lawsuit, My step
family the majority were white. I Pray your
time something good will happen to me if I just
believe and there is this young girl I like a lot but she
seems to get herself in trouble. But I know if I could
just be there for her she would not be making the
mistakes she does and she is my last hope. I would
like to start my family with her she is nice she
is kind. But in my community it's also said if you
did not commit the crime you still have to do the crime.
Money that's what people of poverty don't have, so
there for we have to depend on justice, But what happens
when the same people that are meant to protect us are causing us
harm

Sincerely

Albert Brown

B I am also on appeal if they grant my Appeal I will not be able to stay in a
halfway house I will be on the streets and homeless. I am informing you also

Lawsuit against. So now i am totally alone no family
money out of jail, I've lost every thing and it's
ready paid for a young man who already loss one family
to loss two. Only because I have been done wrong and
can prove it. The charges I filed my lawsuit on
was dismissed, but they went back to 16 and said
they found some drugs in the back of
car? No in car cocaine, no finger prints no nothing.
The more I know they set me up because I led the
police report before they charged them about this drugs
they found in the car. I keep sending Attorneys letters
trying to get them to accept my suit but is really
difficult when you have no one. Can't get out of jail
I mean I just want things to Change. And what I find
now crazy they know they wrong the main office
apologized to me, now why would the police officer
want to apologize to me for? And they drop my
most serious charges. Thanks Brown B

truly prove what I am trying to prove. But
everytime I get out of jail they meaning the
people or the police department just keep
butting me with fake charges. So if I am
locked up the / how so we will have to go thru a
long debate about the State of her actions. Also know
due to the fact I have less my family I cant get out
of jail because I have no parole Address & so I am forced
to go to a halfway house. But what makes things sound
funny I was violated by parole for some charges that
did not even exist. I knew my parolement
was going to get worse. I wanted to file
a state injuction... but they got to me to fast.
So now I am on a reg monitor and I did even fit the requir-
ments for a reg monitor. But what I find even more funny
the reg monitor is hooked up to the people to monitor
me is who the same people I filed the lawsuit
